Mechanisms, Models, Measurement, & Management in Pain Research (R01)

The purpose of this Funding Opportunity Announcement (FOA), "Mechanisms, Models, Measurement, and Management in Pain Research," issued by the National Institute of Nursing Research (NINR) is to inform the scientific community of the pain research interests of the various Institutes and Centers (ICs) at the National Institutes of Health (NIH) and to stimulate and foster a wide range of basic, clinical, and translational studies on pain as they relate to the missions of these ICs.

New advances are needed in every area of pain research, from the micro perspective of molecular sciences to the macro perspective of behavioral and social sciences. Although great strides have been made in some areas, such as the identification of neural pathways of pain, the experience of pain and the challenge of treatment have remained uniquely individual and unsolved. Research to address these issues conducted by interdisciplinary and multidisciplinary research teams is strongly encouraged, as is research from underrepresented, minority, disabled, or women investigators.

This FOA will utilize the NIH Research Project Grant (R01) award mechanism and runs in parallel with FOAs of identical scientific scope, PA-06-543, that solicits applications under the R03 mechanism and PA-06-542, that solicits applications under the R21 mechanism.

Create a new project

Project Title

Description

Enter a project title and description. These will be displayed on your project site, and will be included in the invitations sent to the team you choose below.

Choose a grant opportunity

Select from my saved grants

▼

Enter an alternative grant opportunity

Start a project without a grant

If the purpose of this project is to write a grant application, choose a grant from your grants list, or provide the details of an alternative opportunity. If your project is for another purpose, select the third option.

Key Dates (optional)

Description	Date
<input type="text" value="Complete drafts"/>	<input type="text" value="Sep 9, 2009"/>
<input type="text" value="Complete drafts"/>	<input type="text" value="Sep 9, 2009"/>
<input type="text" value="Complete drafts"/>	<input type="text" value="Sep 9, 2009"/>
<input type="text" value="Complete drafts"/>	<input type="text" value="Sep 9, 2009"/>
<input type="text" value="Complete drafts"/>	<input type="text" value="Sep 9, 2009"/>

You may specify up to five key dates for your project. Use these to communicate with your project team members about important deadlines.

Invite team members (optional)

One e-mail address per line

Invite collaborators to your project by entering their e-mail addresses. They will receive e-mail invitations with a summary of the project information you've specified. You can always invite team members later.
